About me

Hello, I am Maxat, and I am a full-stack developer with 5 years of experience in web development. I have a deep understanding of how to create robust and scalable web applications and web3 I have experience in developing web applications using:

* PHP, JavaScript, Lua, Python,
* Django, NodeJS, React, Docker, REST API, RPC
* Web3 integration, MySQL, PostgreSQL, Tarantool, etc.

I am interested in the development of web applications using the latest technologies. Furthermore, I am looking for a job where it can develop my skills and knowledge. I am a quick learner and have a strong attention to detail. I am a team player and have a positive attitude.

Education

Regional Social-Innovational University
Bachelor's degree, Teacher of physics · (2014 - 2016)

Kazakhstan Engineering and Pedagogical University of Friendship of Peoples
Bachelor's degree, Radio engineering, Electronics and Telecommunications · (2007 - 2011)

Work experience

Devex Services
Full Stack Engineer
August 2020 - Present (1 year 11 months) St Petersburg City, Russia

I work in this company as a Full-stack backend developer. I maintain for sites on PHP, (Laravel) JavaScript stack and microservices which is worked on Tarantool in-memory computing platform. In this stack, our team use Lua, Python and PHP programming language as main language. The Database is like Redis like Tarantool can be used instead of relational databases. Such a solution will work many times faster. With Tarantool, you can replace the traditional bundle of database & cache and reduce operational costs. I develop REST API services for company sites and apps. Also, We used Laravel, Strapi, OctoberCMS, WordPress and No-Code development stacks.

Skills: PHP · JavaScript · Laravel · OctberCMS · Tarantool · Non-Fungible Tokens (NFTs) · Lua · WordPress · Django · Nginx · Linux

Perfect systems LLC
